Ariel Han
Nikki Yankova

Projects we are working on in the upcoming year

NSF BIOSIM

NSF Re-Crafting Math

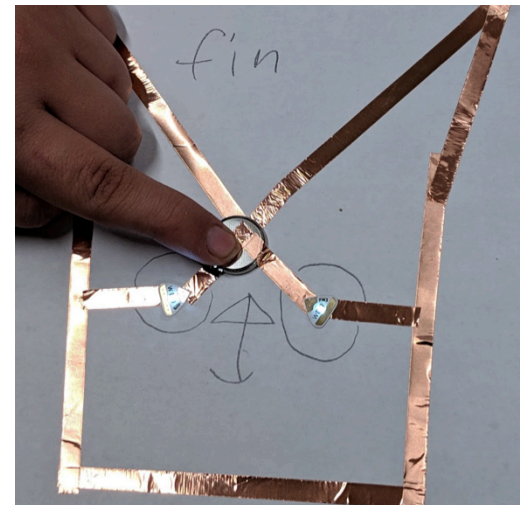

NSF AISL Museum work

NSF Future of Work

NSF CAREER

NSF Sci Learning +

Possible areas of collaboration with other groups

- Exploring applications of our new technologies, including wearables, custom IP technology, and new AR technologies in new contexts.
- Disciplinary expertise on educational projects, including mathematics, computer science, biology, and other STEM fields craft.
- Scaling up of innovations & sustainable revenue: e.g., exhibit designs, toolkits, workshop models, professional development.
